### Tech Specs

	Smudge Resistance	Scratch Resistance	Optical Density	Ink Melting Point
215W Premium Wax	A	A	> 1.80	75° C (167° F)

### Performance Characteristics:

Superior edge definition and print quality for crisp barcodes and text  
High resolution printing at speeds up to 12 IPS (inches / second)  
Prints on a wide variety of substrates from uncoated papers to mid-grade synthetic films  
Dissipates static for easy handling and extended printhead life  
Exceptional smudge and scratch resistance

### Recommended Substrates:

Coated and uncoated paper label and tag stocks, gloss paper, floodcoated paper, synthetic papers, UV varnished labels, polyethylene, polypropylene, polyolefin, Kimdura® and Valeron®

### Recommended Applications:

Flexible Packaging

General

Inventory

Logistics

Pharmaceutical
