PAC10
On-Demand Full Color Print & Apply Label Applicator For Conveyors

*Designed specifically for use with the Epson® ColorWorks® CW-C6000P on-demand label printers with peel-and-present capabilities, the PAC10 delivers an on-demand, full color print and apply labeling solution **for conveyors and automated environments**. The PAC10 applicator allows your operation to take full advantage of the Epson C6000P built-in label peeling capabilities and concentrate on production rather than label application.*

Accuracy, Workflow Efficiency & Safety

The PAC10 delivers high accuracy print and apply label placement every time. The Epson peel-and-present capabilities combined with this automated label applicator ensure a safe and efficient workflow, even when workers are required to wear gloves.

Flexibility Makes Full Color Label Application Easy

The PAC10 color label print & apply solution is so easy; all the operator needs to do is place the product on the conveyor. This tabletop-sized unit can print varied label sizes and accurately apply to squares, rectangles, flats or rounds; and is capable of printing multiple sizes and types of labels.

Exclusive Features Allow Greater Productivity

Exclusive features such as a tamp shift and flex tamp, along with heavy-duty dual cylinder construction, allow labels to be applied to a wide variety of products. Other unique features include a 5-color light panel that indicates status, a removable printer unit, and easy access to the electrical panel and pneumatics.
Intelligent Operations

Automatic setup, with multiple programmable labels for easy changeovers to different types and sizes. Multi-language touch screen operator panel can be used with the General Data SmartTouch Panel for a complete solution. The PAC10 also offers advanced PLC & I/O, as well as USB, Ethernet, Serial, and WiFi connectivity options.

Product Specifications:

Dimensions: WxDxH	29x18x15.25 (in) | 736x457x388 (mm)		Printable Resolution:	Up to 1200x1200 dpi full color
Weight:	95 lbs | 43 kg		Air (as needed):	80 psi @ 4 cfm
Voltage:	115 Volts AC 60Hz 8 Amps | 220 Volts AC 50Hz 4.0 Amps		Dispense Accuracy:	Up to +/- 1/32" (.8mm)
Label Width:	Up to 4.25" (108 mm) **or** Up to 8.34" (212 mm)		Label Length:	Up to 12" (178 mm) - Dependent on Tamp Pad
Requirements:	Compressed air, 2-3 CFM, 60 psi		Standard Tamp Pad:	4"x4" (others on request)

Options:	Rolling or fixed stand		Air-blow conversion
	Conveyor side-mounting bracket		Front tamp configuration
	Label on pad detection		Corner wipe-around configuration
	Smart Touch Panel		Custom programming

PAC10 configuration with stand
