

Histology Innovation for a NEW Generation

Cassette Labeling System

SHURMark® & SHURTrack™
Processing & Embedding
Cassettes

Proven Technology. Superior Reliability.
Protecting Every Life Story In Your Lab.

Each tissue specimen your lab processes has a life story behind it. Your mission is to ensure all your specimens receive optimal processing in order to deliver the best possible care.

SHURMark® and SHURTrack™ processing & embedding cassettes offer labs the versatility to be compatible with today's most popular cassette labelers!

Versatile Labeling Solutions Aid In Increased Productivity

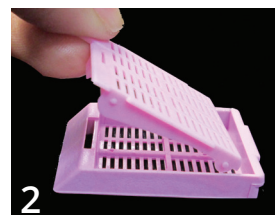

There's a patient's life story behind every tissue specimen your lab processes, and it's your job to ensure every life story receives the best possible care. SHURMark® and SHURTrack™ cassettes are available in Dispenser Boxes, Bulk and Taped Sleeve packaging configurations to accommodate every application from pencil and pen handwritten identifiers to prefilled magazines. Both biopsy and regular tissue embedding cassettes can be efficiently loaded into various cassette printers for automated printing of barcodes and alphanumeric characters.

SHURTrack™ Processing & Embedding Cassettes

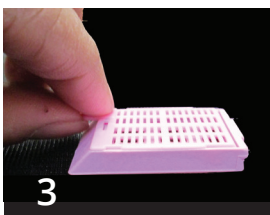

The channel track hinge provides unique operation and unparalleled locking security. Choose from conventional dispenser packaging, pre-packaged sleeves for direct insertion into Thermo / R.A. Lamb MicroWriter, TBS' SHURMark®, Leica and Sakura (with hopper adapter) cassette printers or economical bulk bags of 3000/cs. Lids are packaged separately. Both tissue and biopsy cassettes are available in 10 colors.

SHURMark® One-Piece Processing & Embedding Cassettes

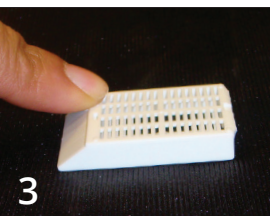

Cassettes have an attached lid in an open position. Popular one-piece design with improved rounded thumb-tab for user comfort. Choose from conventional dispenser packaging, pre-packaged sleeves for direct insertion into Leica cassette printers or economical bulk bags of 3000/cs. Both tissue and biopsy cassettes are available in 10 colors.
